

HAPPY THANKSGIVING

TIPS TO PROTECT PUBLIC HEALTH

Please place food waste, fats, oil and grease in the trash and not down the drain as they can cause not only your household drains but the sanitary sewer system to clog and overflow.

Montecito Sanitary District has had **NO SEWER OVERFLOWS** in 2019.

Help us continue our perfect record and protect public health and the environment by placing all food waste in the trash.

And remember to call us first if you are experiencing any sewer problems. We are here to serve you!

*If you experience any sewer system problems
always CALL US FIRST: 805 969-4200*
